

# GREEK CLAIMS ARE TAKEN UP TODAY BY PEACE ENVOYS

FOREIGN MINISTER AND PREMIER OUTLINE TERRITORIAL DEMANDS OF THE HELLENES AT PARIS.

## Wilson Received by Chamber of Deputies

Criticism of League of Nations as "Lighting Up of Empty House" Has Speeded Action.

(International News Service.)  
Paris, Feb. 3.—Another unique honor was paid to President Wilson today when he was publicly received on the floor of the chamber of deputies. It has been 70 years since a similar honor had been paid to a visitor to France.

(International News Service.)  
Paris, Feb. 3.—Greece's peace claims were taken up by the representatives of the big five powers today.

M. Vassilios, Greek premier, and M. Politis, the foreign minister, were invited to address the envoys, setting forth the territorial claims in Thrace and southern Albania and in Smyrna. Some of the Greek claims conflict with those of Italy, thus presenting obstacles.

President Wilson has a full program of activities today. In addition to attending the supreme inter-allied council, at the foreign office, he was publicly received on the floor of the chamber of deputies, and afterwards presided at a full meeting of the committee that is framing the program for the league of nations.

The league of nations meeting was regarded as one of unusual importance. In view of the criticism that his problems were being shelved until the league could be whipped into shape, the urgency of this matter was forcibly brought home to President Wilson by a review of the fortnight's work. Practically every important action decided upon was taken in the name of the league of nations.

Premier Hughes of Australia, who led the opposition in the colonial discussions, called it a "lighting up of an empty house of a league of nations, when it does not even exist."

The president is therefore most anxious to hasten the work.

Summed up, the conference has already accomplished in the name of the league of nations: 1—Summoned a conference with representatives of the Russian factions on Princess Island in the Sea of Marmora on Feb. 16; 2—Decided upon supervision of the German colonies in the Pacific and in Africa and of Turkish territory by mandates; 3—Appointed a commission to go into Poland; 4—Taken steps for a settlement of the dispute between the Czech-Slavs and the Poles; 5—Named an independent commission to study the claims of Roumania and Serbia in Banat and Temesvar.

All the foregoing decisions are dependent upon the league for universal approval.

Many serious problems will present themselves to the conference this week. President Wilson fully realizes and appreciates the growing criticism at home and is devoting all of his energies to the formation of a plan for a league of nations acceptable to all the world.

The biggest opponent to President Wilson's views is Premier Hughes of Australia who has shown no inclination to relent from the open, hostile attitude he has taken. The premier in giving his position said: "We, as Australians, did not wait until the fifteenth hour to come to the defense of civilization. We did not wait for an international tribunal to give us a mandate. Australia refuses to wait for the functioning of a league of nations in New Guinea. That is a question of life and death to us."

## MEET TONIGHT.

## Mr. Groundhog, Peer of Prophets, Fails to Glimpse His Shadow

Mr. Groundhog walked out Sunday, took a look around and failed to see any signs of a shadow.

Him As Knows says as a result we are booked for six weeks good weather, but the Guy Who Makes The Fires declared this morning there was a hitch somewhere for it was far from being an ideal morning today.

However, the Weather Man is encouraging, and prognosticating thusly for the week:

"For the South Atlantic and East Gulf states: Rain is indicated for Monday and clearing weather Tuesday, with fair thereafter. Temperatures will be slightly above normal early in the week and normal thereafter."

## BETTER SERVICE CAMPAIGN STARTS ON FEBRUARY 10

PURPOSE IS TO RAISE STANDARDS IN HANDLING OF EXPRESS.

Plans of a most comprehensive nature to bring about conditions which will make possible a marked improvement in the express service throughout the country were announced, last night, by E. E. Dickinson, local representative of the American Railway Express Company. A "Better Service Campaign" will be undertaken by the 135,000 men and women employed in the express business, for the purpose of raising the standards of packing, wrapping and marking express shipments.

The drive will start on February 10, in every city and town in the country. It will comprise a campaign of education and appeal among express employees simultaneously with a wide-spread effort to secure the co-operation of the shipping public along the same lines. No new packing or marking rules have been adopted for the campaign, but express drivers and receiving clerks will be instructed hereafter to insist, firmly but courteously, that the rules already in force be strictly adhered to.

The chief purpose of the "Better Service Campaign" is to check, once and for all, the waste of time, effort and money that result from lost or damaged shipments. It is a source of dissatisfaction and annoyance to both shippers and the carrier and tends to impair the express service. It is expected that all who ship by express, and 300,000,000 shipments are annually traveling that way, will be keenly interested in the forthcoming drive, because it so intimately concerns the transportation end of many different trades and industries, some of which depend almost exclusively upon the express service.

The funeral music was given by a choir composed of Mr. and Mrs. B. B. Pickens, Mr. and Mrs. Seneca Burr and Mr. and Mrs. Herman Troup. The Music Study club and other organizations of which the deceased was a member attended in a body, as did the dentists of the twin cities.

The measure has been materially changed to meet the views of administration leaders in both houses.

## Little Boy Falls Into Burning Trash and Death Results

Funeral services were held this morning for little J. B. Spigle, three year old son of Mr. and Mrs. Albert Spigle, of the Fairview neighborhood, who died Sunday from burns received Saturday morning. Interment will be made at Laton.

The child was in the yard of the home Saturday morning, when a pile of trash was being burned. In some manner he fell into the flames and his clothing, igniting rapidly, caused burns which resulted in death Sunday, despite the efforts to save him.

## BACK POLLS NET BIG AMOUNT FOR COUNTY SCHOOLS

NINE CITIZENS PAY FOR EIGHTEEN YEARS, MCADOO GETS A VOTE.

More money was collected in back polls in Morgan county this year than was collected in straight polls for 1918, according to an announcement of Charles Robertson, tax collector, today.

A total of 1609 straight polls were collected, bringing in a revenue of \$2,413.60, while 278 back polls were paid, bringing a revenue of \$2,742.

An unusual feature of the collections was the fact that nine citizens paid for 18 years in order to be restored to full citizenship. Eighteen years is the longest period allowed by law for failure to pay polls with the chances of being reinstated to citizenship upon their payment, Mr. Robertson explained.

It was reported today that one citizen paid for eighteen years and told friends he wanted to vote for the first time for William Gibbs McAdoo for president of the United States. He is employed at the local Louisville and Nashville shops.

## LONGWORTH'S ATTACKS ON MUSCLE SHOALS.

Every now and then a certain Ohio representative by the name of Longworth, whose principal claim to fame is that he contracted a matrimonial alliance with the daughter of a former president, sees fit to launch an attack against Muscle Shoals. Like the Chicago Tribune and Collier's Weekly, he holds to the theory that the Civil War has not yet over and that the South is not a part of the United States. In his intense "patriotism," he is galloped and chilled at the very thought of the development of this section.

Recently, and probably to use up some of the spare time left on the hands of Congress when President Wilson went abroad without leaving a clear-cut program behind, Mr. Longworth has seen fit to cast a few more of his puny javelins at the great government project on the Tennessee. He has not only grumbled and complained at the prospect of federal development of one of the nation's mightiest waterways, but has seen fit to charge that the construction of the nitrate plants—a purely war measure—cost more than it should. He has lifted his holy hands to heaven and demanded an investigation of federal expenditures, and has been answered by Representative Almon with a counter proposition—that Mr. Longworth himself head the proposed investigating committee.

In replying to Mr. Longworth, the Eighth Alabama congressman very pertinently says:

I do not understand why he singles out extravagance at Muscle Shoals and at no other place. Is it because it is located in the south, or is it because it is the purpose of the government to engage in the business of manufacturing fertilizer for the benefit of the farmers of the country? Let him answer.

While Mr. Almon's challenge does not settle the controversy, it does show plainly enough the animus that prompts the Longworth demand for a probe. "Nick," the broad minded watch dog of the treasury, cannot scent possible graft or extravagance at Hog Island, or in connection with the building of the cantonments, or with the provisioning of the army, for it is known that all these contracts had to do with the north, with the east or with the west. The only really big government project located exclusively in the South was at Muscle Shoals, and it is singled out by this champion of parsimony and checkered expenditures.

If Uncle Sam saw fit, as he did, to dump \$100,000,000 into the improvement of the Ohio river, the sum invested was too small to arouse the tender Longworth conscience. When the same generous uncle thought that \$20,000,000 could be used to advantage in opening the Tennessee river to navigation, and in constructing great nitrate plants to be operated by water power at a minimum of cost, the finer sensibilities of the impeccable Longworth were outraged.

Friends of Muscle Shoals need not be alarmed by the Longworth outbursts. The intelligent voters of the North do not as a rule send men of this calibre to either the House or the Senate. Sectionalism is almost dead, and its feeble flickering flames are now fanned only by that limited number who through political accident, great wealth or fortunate matrimonial connections manage to get the opportunity to misrepresent the North by breaking into Congress.

According to press reports, an Irish labor congress has been called to meet at Dublin for the purpose of demanding a 44-hour work week. If this "shorter hours" agitation continues, it will be only a matter of time until workers will be quitting a day's labor before they begin, to use an Irish "ball".

People who used to scoff at Mr. Bryan's prediction that the nation would some day be dry are just now thinking deep thoughts—The Birmingham Age-Herald.

Yes, and those who ten years ago heard Mr. Bryan say that prohibition was a local issue—well, they are right to think that just now they would be taking deep draughts.

Secretary Glass has made it plain that another Liberty Loan is absolutely necessary. Congress, by its appropriations, will complete the elucidation.

All of the allied nations have now made their wants known to the peace conference. It is worth remarking that the United States is the only one that has a single desire—world peace.

Brain shoals are probably responsible for Longworth's attacks on Muscle Shoals.

Some of the soldier boys abroad are still expressing their "disappointment" at the signing of the peace armistice. Such camouflage is to be excused, as it is only intended to fool the gentle ones back home.

America sent its best engineers to France to construct good roads. Why should it not show the same interest in its own highways?

Between the ground hog and the Alabama Field trials, we are inclined to put our money on the field trials, at least so far as the weather of the immediate future is concerned.

Hoover said that the enactment of the bill appropriating \$100,000,000 for the relief of the famine stricken of Europe had lifted "a load of fear from many hearts." Either the food dictator is mixed in his physiology, or the wrong impression is abroad over here as to the purpose of the donation.

Longworth might have opposed the food relief bill on the ground that the money was to be used in blocking certain alimentary canals.

## JUST IN PASSING

## A REGULAR THING.

"It seemed that regular Field Trial club weather was on the boards this morning," said a well known sportsman. "Every year the meet is cursed with bad weather, last year it was particularly bad. The prediction for Tuesday is fair and I certainly hope it is a true one. The club has had more than its share of inclement weather."

## LADIES ESPECIALLY INVITED.

"On behalf of the Alabama Field Trials club I want to extend a particular invitation to the ladies to be present at the drawing tonight," said Dyke Echols. "Many people probably have never witnessed a drawing for a competitive meet and I am sure that they would find it interesting. All dog owners, whether they are members of the club or not, are invited to the drawing."

## MOVING DAY TODAY.

"Yes, today is moving day," said D. W. Speake, of Speake, Echols and Speake. "It's no joke either. We began with the vans early this morning and I don't know just when we will complete the transfer." Speake, Echols and Speake are moving into the two buildings formerly occupied by The Thomas grocery and Britain Bros., at the corner of Moulton street and Second avenue. Both buildings have been remodelled and are now among the prettiest locations in North Alabama.

## SWIFT OFFICE IMPROVED.

The local office of the Swift company, corner of Second avenue and Lee street is being improved and enlarged. The office is located in the J. H. Calvin wholesale grocery building.

Bridesmaids scene from the musical comedy of youth, "When Dreams Come True" at the Masonic theatre Tuesday, Feb. 4.

## AMUSEMENTS

## "WHEN DREAMS COME TRUE"

"When Dreams Come True," which will be seen at the Masonic theatre Tuesday, Feb. 4th is heralded as a dainty musical comedy of youth.

Philip Bartholomae, who is responsible for the book and lyrics, is the apostle of youth on the American stage; and his success has confirmed him in the belief that he is wise, in this he has found many who agree with him, because the characteristics of youth are pleasing.

"When Dreams Come True" is built around a tangible plot, but it is not a plot so aggressively brought forward that it interrupts one's pleasure in the many songs and dances, and the fun that surrounds it. It seems hardly necessary to describe the plot here, more than to say that it is sufficient for the purpose, and carries one through a series of entanglements and solutions flimsy enough to satisfy the truest business man. In the course of its working out, much melodious music is heard, while the principals and chorus are engaged in agreeable dancing numbers as well.

The music is by Silvio Hein, and is melodious and pleasing. Among the many hits that should linger in the memory are "Dear World," "When Dreams Come True," "Love Is Such A Funny Little Feeling," "The Town That Grows Where The Hudson Flows" and many others.

The company is perfect in every particular, while there is no particular star to feature; the scenery is adequate in every way, and the costuming exquisite.

## "THE LITTLE PRINCESS"

DELITE THEATRE TODAY;  
STAR THEATRE TUESDAY

Artcraft Presents Mary Pickford in a Bright Adaptation from the Story by Frances Hodgson Burnett.

(Reviewed by Louis Reeves Harrison.)

Mary Pickford, in an Artcraft production, "The Little Princess" pleased a large audience at the Strand theatre in the attractive impersonation of a poor little, rich little girl, placed at a fashionable English school by her widowed father, an India army officer, who dies during her stay and apparently leaves her penniless after she has been almost spoiled by luxury and indulgence. (She is not wholly spoiled, however, and meets her reversed position of abject and dependent poverty with an amusing exhibition of pluck, until it transpires that she is a great heiress after all.)

Miss Pickford, as the heroine in the story, is very attractive. The artistry of presentation is of a high order and is a personal portrayal throughout, an ideal character in a purely ideal situation. Her struggle is with destiny and she makes some pertinent observations on that fact. The story will prove an agreeable addition to any program.

CLEVER BILLIE RHODES UPHOLDS HER REPUTATION AS CREATOR OF LAUGHTER

To be Shown at the Star Theatre Today and Delite Tuesday.

Miss Billie Rhodes, cleverest of the picture stage comedienne who have made their names synonymous with laughter, proves in her new play "The Girl of My Dreams," an Affair release, that she can make folks laugh spontaneously, which requires consummate histrionic talent in the doing.

In her portrayal of the happy care-free little mountain maid, nicknamed "The Weed," because, like Topsy, she "just grewed," Miss Rhodes displays a sympathetic artistry that spells genius, and her interpretation of the queer character snatched out of the mountain country by Wilbur Nesbit, is certain to add greatly to her fame as well as his.

Billie Rhodes is one of the few women in pictures whose comedy stands up on its merits in entire free-

dom from suggestiveness. With a keen appreciation of effective situation and a superb ability to use the finer shadings of the actor's art, she finds in "The Girl of My Dreams," a whole lifetime of human emotions.

**THOUGHT**

One love went out with a butterfly  
net Dainty and debonair;  
He laughed a laugh that was light and  
gay  
And angled for hearts in a nonchal-  
ant way,  
But never a heart could be snared!  
And one went out with a snail and  
four,  
And long were the trumpets blown;  
Heralds rode east and heralds rode  
west,  
And north and south in a diligent  
quest—  
Yet love rode home alone  
But one there was with a broken  
wing,  
And a beggar's cloak of gray—  
And a Golden heart was dropped to  
alms  
Into the little beggar's blind palms  
By a queen as she passed his  
way!

**MY SERVICE STAR.**

(By Cecil Fannig.)

A star of blue on a field of white,  
With a border of flaming red;  
A star of blue  
For the lad so true,  
"My hero!" I proudly said  
"My star will shine in 'No Man's  
Land  
Through the battles' smoke and din  
And fight the fight  
For the cause of right  
He was made to do and win!"

But now my star has been changed to  
gold,  
On its field of lonely white,  
And the tears I shed  
Wet the border red

"That binds it and holds it tight.  
But God is good, and His service stars  
Each night in the sky I see  
And I know that one  
Is my own brave son  
Who died for the Fleur de Lis.

Billy's favorite toy is a little bat-

called Sport. This dog's permanent  
occupation is sitting on his hind legs.  
Recently his mother was about to take  
Billy for a walk. They had just start-  
ed when he asked if he might go back  
to get Sport. Sport having joined  
them, the three and gone scarcely a  
block when Billy seemed to notice  
for the first time that his pet was for  
ever seated, said: "Oh, I guess I'll take  
Sport back; no use of him going with  
us, he's only got two walkers."

**Rotary Tooth Brushes.**

It seems to be paying a great  
deal of attention to rotary tooth  
brushes lately. Many patents have been  
granted on devices of this kind, some  
of which are distinctly ingenious. Some  
of these devices depend for the ro-  
tary movement upon the tightening and  
loosening of the grip on a pair of han-  
dles, and it appears that the polishing  
member is exceptionally well suited to  
reach tooth surfaces that are well-nigh  
inaccessible with present tooth brushes.  
Furthermore, there appears to be less  
danger of injuring the gums with the  
rotary type of toothbrush, for the reason  
that few people take the trouble to  
use the flat brush properly.

## Daily Health Talks

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get well is to go back. Something grows out of the ground in the form of vegetation to cure almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it would seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating food and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are clogged up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

### Work and Recreation.

The kind of work cannot be relied on continuously to satisfy the play instinct, any more than one form of exercise can develop and strengthen the body symmetrically. Hence, in seeking recreation follow some form of work not connected with earning one's livelihood—work that will extend one's contact with life, broaden the mental vision, and be carried on purely for its own sake. In other words, work that is not compulsory, but sought solely for its interest and attraction and the satisfaction of doing it. The absence of compulsion to some extent frees the spirit, and gives to work a more recreational character. These are the foundations, observes a writer, of that happy and contented, or at least interested state of mind which we seek to attain by recreation.

**Calomel Today! Sick Tomorrow!**  
**I Guarantee Dodson's Liver Tone**

Don't take nasty, dangerous calomel when bilious, constipated, headachy. Listen to me!

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your drugstore and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start

your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

### Forget Little Troubles.

When one thinks about it, few happenings are important enough to take seriously. Why be disturbed about the countless little things that irritate, asks a writer. What is a man's philosophy that it can meet great issues like a stoic and make him uncomfortable to live with just because the coal bill happens to be large or his new coat does not fit quite to his liking? Once having lost one's temper the whole world is out of joint—at least for the time being, and as men live in the "time being," that means much.

## HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calotabs, the New Nausealess Calomel.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess Calomel called Calotabs, which is free from the sickening, weakening, and salivating effects of the old style calomel. Doctors also point out the fact that an active liver goes a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time, with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful. (adv.)

## WORKERS BUSY ON PLANS FOR VICTORY LOAN NEXT SPRING

"Let's Finish the Job" Will be Appeal to Subscribers and Volunteers in Last Bond Campaign.

Atlanta.—Forces are being lined up throughout the country to put over America's fifth war loan—the last the public will be called upon to absorb—the early part of April.

The decision of the Treasury Department to designate the new bond issue as the "Victory Liberty Loan," seems to be meeting with general favor. The name carries the thought of the victory of America and her allies on the battlefields of France for the cause of freedom and democracy.

The amount of the loan will be determined by the needs of the Treasury Department when the issue is authorized. It is believed, however, it will be about six Billion Dollars—the same as the Fourth Liberty Loan. The interest rate of the securities has not been decided but assurances have been given that it will be attractive from the investor's point of view.

"Let's finish the job" is the appeal made by officials of the War Loan organization to purchasers of bonds of the previous issues and to workers. The county organizations are being reassembled for the last great effort.

In a statement just made public, Governor Joseph A. McCord, of the Federal Reserve Bank of Atlanta, chairman of the Sixth District War Loan Organization, emphasizes the need of another loan.

"It was not alone the achievement of our soldiers in breaking the Hindenburg line that made Germany beg for an armistice, though I would not rob the fighters of any of the glory," he said. It was the gigantic scale of preparation in America, behind the army, our huge production of arms, ammunition and ships; our greater army in training behind the firing line, that convinced Germany it was useless to fight any longer."

"By going into it as we did, a vast sum was spent, but it brought a saving in the lives of thousands of our young men. Critics have charged the Government with "extravagance" in handling war contracts. It was this determination to "win at any cost" that brought the Hun to his knees. It was economy, not only in lives but in money we would have been compelled to spend had the war lasted another year or two years longer."

The obligations now outstanding for this enormous production of material must be met. That is the reason it is necessary to raise more money through bonds even though the armistice has been signed. American soldiers still are in Europe and until they have been brought back and the bills paid, the public's duty to the Government will not be fulfilled—the job will not be finished.

## SPECULATORS, TRY TO GRAB LIBERTY BONDS AT BARGAIN

People Urged Not to Sell Government Securities at Sacrifice or Exchange Them For Questionable Paper.

Atlanta.—Reports are reaching the Federal Reserve Bank of Atlanta that many owners of Liberty Bonds are selling them at prices lower than their market value.

Investigations show that shrewd speculators are active in trying to induce people to part with their Government securities. Many of them are offering to take Liberty Bonds in exchange for some other so-called "security" which promises a higher rate of interest than Liberty Bonds.

It is pointed out by Treasury officials that Liberty Bonds are worth every dollar paid for them. One evidence of their value is the eagerness of the speculator to get possession of them. He knows what they are worth. Their Liberty Bond owner does not know the value of the "stock" or "bond" he is offered in exchange for his Government security.

Liberty Bonds have back of them the entire resources of the United States which makes them worth their face value. The person who exchanges them for some other kind of paper risks losing the money invested in his bond as well as the interest.

Other people are selling their bonds because they feel that "the war's over" and they are no longer obligated to hold them. Although fighting has ceased, the war will not be over until the peace treaty is signed and our soldiers are home. A Liberty Bond is a certificate of service and the person who sells them at a sacrifice is deserting the cause. He is reflecting on his own judgment and patriotism and surrendering an investment that never will fail to pay returns.

It is recognized that there are times when investors are compelled to seek relief from financial distress. Often their first impulse is to dispose of their Liberty Bonds.

In such cases the bank is the place to go. Banks will lend money on Liberty Bonds. The borrower is helped out of his difficulty and does not lose possession of his Government bond.

For Little Brown Men.  
In Japan the early part of the month of May is gain time for all little Japanese boys because it is at that time that the birthday of every one of them is celebrated, notes a writer. The big general birthday party is familiarly known as the "fish festival." During the fish festival every family in which there is a boy proudly heralds the fact by a flag that floats from a pole in the dooryard. It is desirable to have as tall and as big a pole as possible; so, in order to get this kind of a pole, it frequently happens that several families will club together and make one birthday pole do for all. This pole is then adorned with as many flags as there are little boys in the several families.

## You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germ that causes the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that "he cleansed their blood of Rheumatism, and removed all traces of the disease from their system."
